Nahanni 16'5"

Description:

Travel far and fast with the Nahanni 16'5". This Asymmetrical canoe accelerates quickly and tracks like an arrow with enough rocker to allow nimble movement if necessary. Using computer aided design (CAD), the Nahanni's hull has been engineered to offer the paddler peak efficiency. With its deep hull, shallow draft and water deflecting spray rail (a feature unique to Langford Canoe) the Nahanni is a dry and seaworthy workhorse, perfect for week long interior trips or recreational use.
