Prospector 15'

Description:

This 15' canoe can be enjoyed by a wide range of paddlers. The Prospector 15' lends itself to both solo paddlers and short duration tandem trippers. The 15' is also the choice for bird watchers, photographers, anglers and hunters. A great back country canoe to use on small inland lakes or much bigger water.

The deep and stable hull will permit larger loads for medium length tripping excursions, and the massive capacity of this "little" canoe makes it a safe tripping design for those requiring a length shorter than 16 foot. The flared Hull and moulded Spray Rail significantly improves it's seaworthiness, allowing it to shed more water than any other 15 foot canoe. The slight V-Hull design, provides exceptional stability (both initial and secondary) and a tracking quality that is not typical of shorter symmetrical canoes.

The slight V also allows this shorter canoe to slice through the chop with the efficiency of a longer hull. The moderate rocker and shorter length allow nimble movement and quick pivoting when the need arises. Test Paddle the Prospector 15' to find out why it's the go to canoe under 16'.

Specifications

LENGTH	15'
DEPTH	14"
CAPACITY	750 lbs
BOW	22"
BEAM	35.5"
ROCKER	2"

Trim	LangTEX	Kevlar	Carbon
PVC STANDARD	56 lbs	NA	NA
