Prospector 17'4"

Description:

Like the Prospector 16'6", our Prospector 17'4" is the result of almost a century of design and manufacturing experience. This large efficient hull has proven itself everywhere; whether it has been in front of the dock at the cottage, or on multi thousand Kilometer/Mile canoe trips across Canada and the USA.

Extreme stability makes this very efficient canoe perfect for pets, children and lots of gear. It is a definite pick for those requiring peace of mind while not wanting to sacrifice performance.

The hull works well empty and even better loaded, making it a great choice for experts and novices alike. The large swept gunwale and spray rail keep the canoe dry while the sleek entry and exit lines keep the hull moving no matter the load or conditions.

Those in the market for a 17 foot canoe, owe it to themselves to test paddle our Prospector 17'4".

Specifications
